

# CONNECTED HOT WATER

Ruud is proud to bring EcoNet WiFi control compatibility to our commercial tankless water heaters. Available via four accessory kits, EcoNet functionality enables businesses to minimize downtime with proactive maintenance alerts, while giving them more savings and control. Features include:

- Water **leak detection** and **auto system shut-off\***
- **Mobile alerts** for notifications & maintenance reminders
- Gas and water **usage reports**
- Integration with **Nest®** and **Wink®** smart systems
- Mobile Water **Temperature Control**

*\*Indoor models only.*

**FEATURE SHEET**  
Commercial Tankless Water Heaters with EcoNet®

**ADDING ECONET WIFI TO RUTGH-C95 MODELS** *(Standard Commercial Models)*

**EcoNet® Tankless Translator & WiFi Module Kit**

**REWRA630TWH**

Contains all parts required to upgrade single Rheem tankless water heaters to have EcoNet connected features. For multi-unit systems, a Translator Kit is required for each additional unit.

*Includes translator kit, WiFi module kit and leak detection kit*

**EcoNet® Tankless Translator Kit**

**PD415188**

Each tankless water heater requires a translator to work with EcoNet. Can be used in addition to Tankless Translator & WiFi Module Kit for multiple tankless unit installations.

*Includes translator, leak detection kit and connection cables*

**NEED:** **One per System** *Installs in First Heater* **+** **One per Additional Heater**

**ADDING ECONET WIFI TO RUTGH-CM95 MODELS** *(Commercial Models with included Manifold Control)*

**EcoNet® Tankless WiFi Module Kit**

**PD415189**

WiFi Module Kit can be used to upgrade Tankless systems already containing Manifold Translator. One WiFi Module is required for each tankless system, not per tankless unit.

*Includes WiFi module, connection cable and power cord*

**EcoNet® Leak Detection Kit**

**PD415190**

Can be connected to built-in Manifold Translator in Commercial Tankless models to add leak detection features. Indoor models ONLY.

*Includes leak detection sensor and harness*

**NEED:** **One per System** *Plugs into Translator of any Heater in system* **+** **One per Heater** *Indoor models only*

**NEED LONGER COMMUNICATION CABLES (RJ25)?**

**RJ25 Communication Cables**

Additional cable lengths for connecting translators between units or WiFi module to translator where additional length is required.

**RCPN-AMP03-0013111101-0002** - 72 in. Long

**RCPN-AMP03-0013111101-0003** - 48 in. Long

**RCPN-AMP03-0013111101-0004** - 240 in. Long

*\*Indoor models only.*
